DELAWARE PUBLIC HEALTH SERIES

Implementing 2021 USPSTF Lung Cancer Screening Guidelines

This 60 minute course will explore the current state of lung cancer and current evidence-based screening recommendations. The U.S. Preventive Services Task Force Guidelines (USPSTF) updated their screening guidelines for practitioners this year. In addition to the revised guidelines, the course will look at risk-factors, benefits of early screening and diagnosis, shared decision making, as well as work flow strategies to increase your lung cancer screening rates. Handouts and resources are included.

Recommended Audience

The information in this course is appropriate for providers and clinical staff.

Continuing Education

Nurses: This course is approved for 1.0 hours of Continuing Education for Nursing. Quality Insights accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.
