

COMMUNITY LEADERS & PATIENT ADVOCATES

Your Role in Cancer Clinical Trials: How You Can Be An Advocate for Cancer Clinical Trials In Your Community

Learning Objectives

By the end of this course, participants should be able to:

- Reflect on how cancer impacts one's own community;
- Explain what cancer clinical trials are, how they work, and why they're important;
- Discuss the risks and benefits of clinical trial participation;
- Name at least two ways to learn more about cancer clinical trials, especially in one's own community; and
- Identify three specific actions advocates and community members can take to increase their peers' awareness of clinical trials

Purpose of Training

To prompt individual and advocacy group action on:

- sharing information about the importance of clinical trials
- encouraging all patients to ask about clinical trials regardless of diagnostic stage
